

March 28, 2025

S. Suresh Madhavan, Ph.D.  
Dean and Professor  
Temple University School of Pharmacy  
Philadelphia, PA 19140

Dear Dr. Madhavan,

I wanted to respond briefly to your very kind letter of March 27, 2025. We, too, at the FDA Alumni Association feel our relationship with the Temple University School of Pharmacy has never been stronger. We are thrilled to have been able to raise an additional \$30,000 – over the past two years – for the James S. Benson FDA/FDA Centennial Scholarship Fund.

The work your school does to prepare aspiring RA/QA professionals with a strong curriculum in regulatory science is so important. We were especially pleased to have hosted Assistant Dean Wendy Lebing at our recent Winter Celebration to recognize her many contributions over the years. Our Campaign Chair, Joe Levitt, also tells me that Chris Van Vessem, your Assistant Dean for Development, has been incredibly helpful and supportive in guiding us to meet and even surpass our initial fundraising goals.

Thank you for fostering this relationship to make it even deeper and long lasting. We look forward to continuing that into the future.

Sincerely,

/s/

Deborah M. Autor  
Chair, FDA Board of Directors
